

Title: Team Meeting Notes - Group 3

Participants: Sopheaktra CHEA, Sarah Khalid

Date: June 03, 2026

1. Objective:

Coordination of the security upgrade project for 'Pampered Pets' and finalization of the architecture design.

2. Key Discussion Points

- **Architecture Strategy:** Sarah Khalid took the lead on academic research regarding threat landscapes, while I focused on the technical design of the Active-Active Cloud Architecture.
- **Budgeting:** We reviewed the \$50,000 project budget. It was decided to allocate 40% to perimeter protection and 30% to SIEM/Cloud integration.
- **Division of Labor:**
 - Sarah: Responsible for researching regulatory compliance (GDPR) and policy documentation.
 - Sopheaktra (Self): Responsible for technical architecture diagrams, Gantt chart creation, and the "Hybrid Supply Chain" strategy.

3. Action Items:

- Sopheaktra: Finalize the HA diagram and the quantitative decision tree model.
- Sarah Khalid: Complete the qualitative risk analysis document based on STRIDE.
- Follow-up: Next meeting scheduled to review the draft Executive Summary.

4. Notes on Collaboration:

The workflow was highly effective due to our clear separation of duties. Sarah's proactive research provided the necessary academic foundation for the technical solutions I proposed.
